EDUCATION

Batchelor's Of Engineering Amrutvahini College Of Engineering

06/2018 - 06/2022

8.5 - CGPA

12th New Arts Commerce and Science College

06/2017 - 04/2018

66.17%

10th Board Nayyar Madhyamik Vidyalay

06/2015 - 04/2016

83.80%

EXPERIENCE

Analyst Trainee Deloitte USI Consulting

02/2023 - 04/2023

I am a software engineering student and completed 3 month's internship in manual and automation testing at Deloitte USI Consulting. My objective was to learn the fundamentals of software testing and gain hands-on experience.

Tasks

- Tested a web-based application. The objective was to test the functionality of the application using manual and automation testing techniques.

SKILLS

C

C++

Core Java

MySQL

DATA STRUCTURE

PROJECT

Predicting disease from phenotypes using Algorithms

- This project aims to create a predictive model using machine learning algorithms to accurately predict diseases based on an individual's phenotypic traits. By analyzing diverse datasets, the system identifies patterns for early disease detection and personalized healthcare interventions. The goal is to improve patient outcomes and advance medical research in precision medicine while ensuring data privacy and security.

Blood bank management system

- The Blood Bank Management System is a software application that streamlines blood donation and distribution processes. It allows donor registration, tracks blood inventory, manages blood request processing, and ensures proper blood testing and processing. The system enhances blood safety, enables efficient resource allocation, and facilitates quick response to emergency blood requests, ultimately improving patient care and healthcare outcomes.
